Regional Joint Stabilization Wet Labs

Space is limited - sign up now!

To Register contact Innovative Animal Products 888.551.4394 or www.arthrexvetsystems.com

- Learn and practice the concept, techniques and instrumentation of selected joint stabilization procedures in the canine cadaver pelvic limb
- Repair cranial cruciate ligament (CrCL) tears, collateral ligament disruption, patellar luxation, tarsal collateral ligament injury using easy-to-learn techniques and the latest specialized implant
- Practice the application of suture anchors and a novel suture material. Upon completion of this course, the participants should be able to show an increased expertise and confidence in treating unstable or luxated pelvic limb joints including CrCL disruption, patellar luxation and collateral ligament injury
- **Lecture will be open to the first 100 participants, but the 8 hours of hands-on wet lab exercises using pelvic limb cadaver will be limited to 32 participants**

Fees:

Full Weekend	\$ 950
Lecture Portion Only	\$ 250
Wet Lab Portion Only*	\$ 700

*Must have previously attended the lecture portion prior to taking the wet lab.
