NEW TPLO Blades are now available!!

New this month are the double sided saw blades. Now made of Stainless Steel so they can be sharpened. The new style TPLO saw blade allows you to flip the blades over when one side becomes dull. The new blade is still mounted onto a mandrel (hub assembly) therefore only the blade needs to be replaced. Mandrel is reusable dropping your TPLO blade costs significantly. Read on for more information....

NEW Double Edged TPLO Saw Blades

- **Teeth on both ends of the saw blade**
- Made of Stainless Steel
- **Can be re-sharpened upto 3x on each side**
- Only need to replace the saw blade and not the mandrel
- **Come in 15mm, 18mm, 21mm, 24mm, 27mm and 30mm diameters.**
- Only \$250 per saw blade
